

# NOVUS COLLECTION

SPECIFICATION GUIDE &  
PRICE LIST JANUARY 2023

# NOVUS åben

åben is our newest addition to the Novus collection. Designed to be flexible and future focused, this new product provides a ready assembled unit in a slim lightweight steel frame, reducing fitting time for fast and easy assembly.

Available in single and double width units, the åben can be linked to other units to expand the system to your space requirements.

Designed to be as flexible as you need it to be with multiple coordinated elements to style and maximise storage and acoustic functionality.

Coordinated elements available including:

- Acoustic panels
- Lockers
- Cabinets
- Base Plinths
- Shelves
- Planters
- Display boxes
- Preserved foliage

# NOVUS åben

2090mm (w,d,h)

- 2 x (2x3) Frame
- 2 x Double Base Cabinet
- 3 x MFC Locker
- 3 x MFC Planter
- 3 x MFC Shelf

**£3,961**

**Configuration 2**

839mm x 426mm x  
2090mm (w,d,h)

- 1 x (2x3) Frame
- 1 x Double Base Cabinet
- 2 x MFC Planter
- 1 x MFC Shelf
- 2 x PET Acoustic Panel

**£1,801**

**Configuration 3**

2521mm x 426mm x  
1665mm (w,d,h)

- 3 x (2x4) Frame
- 12 x MFC Shelf
- 6 x MFC Box Closed Back
- 6 x MFC Planter

**£5,310**

**Configuration 4**

1680mm x 426mm x  
2078mm (w,d,h)

- 2 x (2x5) Frame
- 4 x MFC Locker
- 5 x MFC Planter
- 3 x MFC Shelf

**£3,527**

# NOVUS åben

## Step 1 - Select your steel frame configuration.

The steel construction of the Novus Collection can be built piece by piece to create your perfect configuration. Begin the process by choosing a starter bay. The maximum width is two bays wide but multiple sets can be attached together using a simple magnetic system.

# NOVUS kontor

**Manufactured from steel, Novus kontor is a stable, sturdy system with a choice of interchangeable colour options.**

Each freestanding unit can be specified up to 2160mm tall to create a room-within-a-room environment with wooden, moss and acoustic panels adding privacy where required.

The structural strength supports the furniture elements as well as design details such as 'windows' and bridging sections. Novus can be readily re-purposed, reconfigured and extended to accommodate evolving requirements.

Clever touches include the interchangeable bracket enabling shelves to be positioned proud or flush to the metal supporting grid.

**Coordinated elements available including:**

- Worksurfaces
- Lockers
- Shelves
- Planters
- Display units
- Storage cupboards
- AV units
- Lighting
- Seating
- Moss panels
- Preserved foliage

# NOVUS kontor

## Bespoke Capabilities

Novus applications are only limited to your imagination. The system can be as compact or as extensive as you need it to be. Our manufacturing expertise means that we can adapt the standard modules to suit your needs entirely.

Novus has been designed as a flexible modular system. Using the standard modules we can create any configuration in any finish, tailored to your specific needs. Talk to one of our designers today.

# NOVUS trellis & canopy

**Trellis is a 2D version of the Novus system, which forms a space dividing structure.**

- 2D grid design
- No intrusive feet are necessary as the design works with a sturdy linking mechanism and levelers.
- Same robust square 25mm x 25mm steel tubing as Novus to create the grid frame work
- Modular and configurable, from 3-by-3 square, up to 5-by-5 square
- Links on to Novus system or to other Novus trellis
- Dress with various types of panel: acoustic, glazed, moss.
- Accessories can be hung from the trellis such as wipe boards, notice boards and picture frames creating a multi-function 'wall'.

£POA

**Canopy is a ceiling structure, which can be linked onto Novus or the slimmer Novus Trellis.**

- Robust 50mm x 25mm steel tubing frame work is used to create ceiling cross frames, which can house louvres if required.
- Recycled PET acoustic louvre panels attach to the Novus steel frame work to create a comforting acoustic space
- The canopy can be up to 3m in width –with no limits to the length when supported by Novus or Novus Trellis
- The canopy only needs to be linked two sides
- Accessories includes curtains, lighting and preserved foliage

£POA

# NOVUS a-zone collaborative bench

**Built for today's inclusive workplace.  
Encouraging ergonomic movement and  
a team-working environment.**

Novus A-Zone cradles the collaboration work zone, bringing style and functionality together. Suitable for individual and team-working, with a generous surface area and desktop power options, the Novus A-Zone adapts to changing demands.

Ensuring a fully inclusive workspace, the Novus A-Zone height settable option provides access and comfort for all users.

The height adjustable Novus A-Zone brings ergonomic comfort, with the option of pre-settable controls. Further comfort is guaranteed with an option of a Fenix worktop, soft to the touch and scratch resistant.

**NOTE:** External height of the A-Zone frame is 2000mm. All worktops are 25mm less than overall length. Individual height adjustable workstations are also available, contact us for details.

## Novus A-Zone Features

Inclusive Workspace	Fully inclusive options. Both the height adjustable and the height settable A-Zone benches, meet standards BS.EN.527-1 Office Furniture and BS.EN.8300-2 Accessible & Inclusive Built Environment.
Workspace Coordination	Part of the Novus range, using the same materials, manufacturing processes and design concept, the A-Zone can be used as part of the range or a stand-alone collaborative bench.
Design Aesthetics	A-frame end supports have been designed so all table options suite together in the same workspace.
Open or Privacy	Two sizes of mesh panels have been developed to provide the option of partially or fully closing the A-frame end supports for privacy and modern aesthetics.
Easy fit accessories	All accessories have been designed to easily hook on and off, securely fixing without tools, to quickly and easily change the style.
Biophilic workplace	Accessories include planters to bring biophilic properties into the work environment, helping to create a colourful workplace.
Integrated cross gantry cabling	Cable management has been incorporated into the design to provide additional light source, ideal for intense work.
Cable management	The cable beam is integral to the structure of the A-Frame, designed with clean lines as a cable free table, or allows fixings for a mesh cable tray.
Utilising space	End frame wipe boards are available in ½ and full panel sizes to further assist with collaboration and team working.
Linak actuator	Market leading Linak DL6 4-way sync actuator powers the height adjustable mechanism for smooth and quiet movement, enabling height tolerance 680-1240mm.
Height adjustment controller	The height adjustment is controlled by CDB6S an easy to use highly sensitive control paddle with soft stop/start. Eco friendly low consumption when on standby mode.

## Cannot find what you are looking for?

Novus A-Zone has been designed with standard components which allow for bespoke adaptations and additions. Talk to one of our designers to see how tailored finish and sizing can meet your specific needs.

### IMPORTANT INFORMATION

**Inclusive:** Wheelchair suitable.

**Sustainable:** Steel is one of the world's most recycled materials, and among the easiest materials to reprocess, as it can be separated magnetically from the waste stream. Our Steel content is in excess of 56% recycled. Egger MFC is manufactured to EN 312 and EN 14322 and FSC accredited. Fenix NTM is certified to NSF, and CE marked for interior building applications. It is also FSC accredited. Fenix is applauded for its durability, thereby providing product longevity. Both MFC and Fenix are popular in the reuse and repurpose streams, eliminating energy consumption by recycling. Planting: real plants, preserved in non environmentally harmful process, compostable at the end of life.

*Note: All prices are retail and subject to trade discount. Pricing is ex works, if you would like a quote for delivery or delivery and installation, please do contact us.*
